re: Dr. Eduardo Federic Llosa

... I enclose a letter from a which is self-explanatory. *B6*

For obvious reasons it is not possible for me to write to the President of Argentina. I may add that long before the present dispute, letters I wrote to that country about violations of human rights evoked no response. I am wondering, therefore, whether there is any step that your Government can take directly, or indirectly, to draw the attention of the Argentine authorities to the case of Dr. Llosa. I enclose a note on the case which has been supplied to me by our own Foreign and Commonwealth Office.

May I end on a personal note by saying how much I have appreciated the heart-warming support that the administration and the people of the United States have given my Country in the present crisis.

Y

Blm Allen
